About GAURIS

Gauris is all about liners. We think about liners. We live liners. We make everything watertight using liners. And we do that very well. The proof? We receive requests from across the world. It is usually custom work, as no two contracts are the same. Whether it is a swimming pond, water tank, waste heap, roof construction, or a swimming pool – no two projects are the same. They always involve bespoke work and demanding requirements. For the composition of the liner. For the strength.

For the shape. For the use and the required lifespan. For the appearance. For the colour. And for the way in which the liners are 'welded' to each other. After all, a liner is much more than just plastic on a roll. Much more.

Certified Quality

Besides various Certificates as KIWA, we are committed to quality and continuous improvement.

Datasheet

Gauris PVC

0,5 - 0,6 - 1,0 - 1,2 - 1,5 - 2,0 mm

Gauris PVC is a homogeneous plastic sealing membrane based on PVC-P.

APPLICATION AREAS	Sealing ponds, natural swimming pools and water pools.
PRODUCT FEATURES / BENEFITS	<ul style="list-style-type: none">· Constant water temperature up to 30°C· Optimized tensile strength and elongation at break· High crack bridgeability UV stabilized· Resistant to roots and microorganisms· High resistance to aging· Cold flexible· Dimensionally stable· Can be laid on a damp surface· Hot air weldable· Without DEHP (DOP) plasticizer· Not bitumen resistant
COLOUR	Homogeneous Geomembrane Standard color: black, olive green, blue, beige, gray, green Surface: smooth Thickness
PACKAGING	Roll dimensions: 0.25 - 2.00 m x 20.0 m - 500 m Weight: 1.29 kg / m ² at 1,0 mm
